I am writing to apply for the Social Media & Community Management position at boOst Startup Ecosystem gGmbH. Your work helping early-stage founders scale through sprints, incubators, and an international network is something I find genuinely interesting. I appreciate the hands-on nature of this role and the opportunity to contribute directly to a growing startup ecosystem.

Through my experience as a Full-Stack & AI Engineer, I have developed strong organizational and communication skills that transfer well into community management. I am comfortable using Figma for design tasks, maintaining content schedules, and coordinating with teams to ensure consistent output. I am also fluent in English and have working knowledge of German, which allows me to write clearly and engage with diverse audiences.

In previous work, I have managed multiple tasks independently while collaborating with cross-functional teams. I am reliable, self-organized, and comfortable taking ownership of recurring responsibilities like scheduling posts, replying to community inquiries, and supporting event coverage. I am also eager to learn Notion and other tools your team uses.

I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the chance to discuss how I can support boOst's marketing team and help tell your story across Instagram and LinkedIn.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
