I am writing to apply for the Working Student HR Operations & Talent position at selectry GmbH. Your focus on structured documentation, candidate communication, and operational HR processes in a fully remote environment aligns well with my background in organizing workflows and coordinating across teams.

Through my work as a Web Developer, I have developed a structured approach to documentation and process organization. I have written clear technical documentation, managed project workflows, and coordinated with stakeholders to ensure smooth delivery. These skills translate directly to documenting HR processes, managing contracts, and supporting operational tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am currently enrolled as a Software Engineering student at Voronezh State University and can commit at least 20 hours per week with flexible availability. I am confident in my ability to support your HR team with operational and coordinative topics.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to selectry GmbH.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
