I am writing to apply for the Werkstudent:in LinkedIn, Brand & Sales Support position at selectry GmbH. Your focus on building brand trust and enabling sales conversations through structured LinkedIn content aligns with my interest in B2B communication and systematic content work.

I have experience using Figma for design and collaboration, and I am comfortable working with tools like Notion and Airtable for structured documentation and editorial planning. I am a currently enrolled student at Voronezh State University of Forestry and Technology, studying Software Engineering, and I can commit 20 hours per week to this role.

One area that particularly interests me is the full content cycle â from research and preparation to publishing, monitoring, and analysis. I enjoy working with structured editorial plans and content tests, and I am eager to apply this approach to support selectry's brand and sales enablement efforts.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to selectry's LinkedIn and sales support initiatives.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
