I am writing to apply for the Courier position at DHL Express. The role requires reliability, organization, and the ability to work under pressure, which aligns with my work ethic and professional background.

While my technical career has focused on software engineering, I have consistently demonstrated the ability to work independently, manage tight deadlines, and maintain high standards of accuracy and safety. These qualities are directly transferable to a courier role where punctuality, route planning, and customer service are essential.

I hold a valid General Driver's License, have a clean police record, and am comfortable navigating using maps and GPS. I am physically capable of handling the demands of the role, including driving, climbing, and walking in all weather conditions.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my reliability and strong work ethic can contribute to the DHL Express team.

Sincerely,

Md Shahanur Islam Shagor
