I am writing to apply for the Casual Customer Service Executive position at Arsenal Football Club. The opportunity to support Arsenal supporters and contribute to their experience with the club is something I find genuinely meaningful.

While my background is in software engineering, I have developed strong written communication skills through years of collaborating with international teams, managing client communications, and handling detailed documentation across multiple projects. I am comfortable working with various systems simultaneously and adapting to new tools quickly.

In previous roles, I maintained shared documents and trackers to monitor team activity and service levels. I am organized, detail-focused, and able to work accurately during busy periods. I also have experience collaborating with external partners to resolve issues and ensure smooth workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
