I am writing to apply for the English speaking Support Associate position at Wolt. Your focus on creating technology that brings joy, simplicity, and earnings to local communities is something I genuinely appreciate. I am interested in contributing to a platform that values both user experience and operational efficiency.

While my background is primarily in software engineering, I have developed strong communication and problem-solving skills through years of working with international clients, stakeholders, and cross-functional teams. I am fluent in English and Bengali, have working knowledge of Russian and Hindi, and am comfortable communicating clearly with people from diverse backgrounds.

In my previous roles as a web developer, I regularly interacted with non-technical stakeholders to understand their needs, explain technical concepts in simple terms, and ensure smooth project delivery. This experience has taught me how to listen carefully, ask the right questions, and provide helpful, accurate responses under pressure.

I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to the Wolt team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
