I am writing to express my interest in the Social Media Coordinator role at House of Ruh. The idea of helping build a lifestyle brand from the ground up, rooted in artisan craft and intentional design between Jaipur and NYC, is genuinely compelling. I appreciate the focus on storytelling, visual aesthetics, and creative strategy.

While my professional background is in software engineering, I bring a strong visual sensibility and hands-on experience with design tools. I have worked extensively with Figma, Tailwind CSS, and MaterialUI to create polished, brand-consistent interfaces. I understand how layout, color, typography, and spacing shape perception, and I apply that same thinking to social media aesthetics.

In previous web development work, I planned and executed content layouts, managed visual assets, and ensured every element served a clear purpose. I am comfortable planning feeds, shaping content ideas, writing captions, and spotting trends. I also bring strong organizational skills and follow-through, which I have demonstrated while delivering full-stack projects from concept to deployment.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV and portfolio for your review. I would welcome the chance to discuss how I can contribute to House of Ruh’s social presence.

Sincerely,

Md Shahanur Islam Shagor
