I am writing to apply for the Associate Brand Manager position at FuseGlobal. While my professional background is in software engineering, I bring a combination of analytical thinking, cross-functional collaboration, and project execution skills that translate well into brand management.

In my recent role as a Web Developer, I worked closely with stakeholders to define product requirements, manage development timelines, and deliver features that aligned with business goals. This experience taught me how to balance technical feasibility with user needs and market priorities.

One area that particularly interests me is the dietary supplement industry. I understand the importance of clear communication, trust, and consistency in health-related brands. My ability to analyze data, manage workflows, and coordinate across teams would allow me to contribute meaningfully to FuseGlobal’s brand strategy.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills and experience can support FuseGlobal’s brand objectives.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
