I am writing to apply for the Contact Center Representative IHA Scheduling Team position at Advantmed. I understand this role focuses on coordinating schedules and supporting operational workflows within a remote team environment.

In my previous professional experience as a Web Developer, I worked closely with cross-functional teams to manage project timelines, coordinate task assignments, and ensure smooth communication between stakeholders. This required strong organizational skills, attention to detail, and the ability to handle multiple priorities simultaneously.

One area that particularly interests me is the opportunity to support scheduling operations in a healthcare-focused organization. I am accustomed to working in structured environments where accuracy, reliability, and clear communication are essential to team success.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my background in coordination and remote collaboration can contribute to the IHA Scheduling Team at Advantmed.

Sincerely,

Md Shahanur Islam Shagor
