I am writing to express my interest in the self-employed partner opportunity at Beutler Saghari & Partner GmbH. Your approach of proactively identifying and approaching candidates directly in the market is a strategy I find both effective and aligned with my own work style. I am drawn to the idea of building a client and candidate network from the ground up with the support of an established organization.

Although my professional background is in software engineering, I have developed strong self-organization, structured workflows, and goal-oriented discipline through years of managing complex technical projects independently. I am comfortable working from home, managing my own schedule, and communicating clearly with stakeholders across different cultures and time zones.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am a quick learner with a problem-solving mindset. I am confident I can apply the training and certification you provide to build a successful practice in headhunting and recruiting. I am ready to start with a real search project and grow step by step.

I have attached my CV for your review. I look forward to the possibility of discussing how I can contribute as a partner in your team.

Sincerely,

Md Shahanur Islam Shagor
