I am writing to apply for the Referent:in Finanzen & Geschˆftsleitung position at PAPA OSCAR Ventures. Your work as a VC/Accelerator supporting D2C and lifestyle brands is interesting, and I appreciate the opportunity to work directly with the management team on both operational and strategic projects.

Although my formal background is in software engineering, I have developed strong analytical and organizational skills through building complex, data-driven systems. I enjoy working with numbers, analyzing data, and preparing clear reports that support informed decision-making. My experience includes designing dashboards, monitoring system metrics, and generating structured analyses for stakeholders.

In my professional experience as a Web Developer, I regularly supported management with operational tasks, prepared presentations and decision documents, and conducted market research to guide project direction. I am comfortable taking initiative, working independently, and communicating clearly with both technical and non-technical team members.

One area that particularly interests me is the opportunity to contribute to financial analysis, business case development, and investment evaluation. I have a strong foundation in data analysis and reporting, and I am eager to apply my structured thinking to support PAPA OSCAR’s portfolio companies and M&A initiatives.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I have attached my CV for your review and look forward to the possibility of contributing to your team.

Sincerely,

Md Shahanur Islam Shagor
