I am writing to apply for the Junior Vertriebsleiter/ Teamleiter Vertrieb und Arbeitsvorbereitung position at FBT Feinblechtechnik GmbH, part of the VEAXO Unternehmensgruppe. The combination of technical understanding, customer development, and team leadership in a hands-on industrial environment is exactly the kind of responsibility I am looking for.

What stands out to me about FBT is the focus on combining technical precision with business growth. The role requires someone who can read technical drawings, assess feasibility, and translate that into profitable offers and efficient workflows. My background in software engineering has given me a strong analytical mindset and the ability to understand complex technical systems quickly.

Through my professional experience, I have worked on full project cycles from requirement analysis to delivery. I have coordinated with cross-functional teams, optimized internal processes, and taken ownership of results. I am comfortable with ERP-like systems, data-driven decision making, and ensuring that operations run smoothly and profitably.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my structured approach, technical aptitude, and willingness to take responsibility would allow me to contribute meaningfully to FBT’s growth. I have attached my CV for your review and look forward to discussing how I can support your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
