I am writing to apply for the Werkstudent:in im Recruiting position at enVoice. Your focus on practical HR experience and the opportunity to contribute to real recruiting processes in a growing company caught my attention. I am a Software Engineering student with a structured working style and a strong sense of ownership.

While my background is in software engineering, I bring the organizational discipline, attention to detail, and digital tool proficiency that this role requires. I am comfortable managing documents, organizing information, and communicating clearly with candidates and team members. I understand the importance of discretion when handling confidential application materials.

In my previous professional experience as a Web Developer, I worked remotely, coordinated with stakeholders, and maintained organized documentation for projects and workflows. I am used to taking ownership of tasks, meeting deadlines, and supporting team operations in a structured way.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my organizational skills and structured approach can support enVoice’s HR and recruiting team.

Sincerely,

Md Shahanur Islam Shagor
