I am writing to apply for the Werkstudent:in im Vertrieb position at enVoice. Your focus on digitalization, cybersecurity, and innovation aligns with my background in software engineering and secure systems. I am particularly interested in contributing to your sales operations while gaining practical experience in a growing company.

As a Software Engineering student at Voronezh State University, I bring strong analytical and organizational skills to this role. My technical background has given me a structured, detail-oriented approach to handling data, maintaining quality standards, and optimizing processes. I am comfortable working independently and taking ownership of tasks.

Through my professional experience as a Web Developer, I have developed strong communication skills through regular client interaction, requirement gathering, and documentation. I am confident in my ability to manage customer information accurately in CRM systems, verify appointment quality, and support your sales team with administrative tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and look forward to the opportunity to discuss how I can contribute to enVoice’s sales operations.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
