I am writing to apply for the Teamleiter (m/w/d) im Kundenservice position at hey contact heroes GmbH. Your focus on team leadership, quality standards, and cross-functional collaboration in a remote-first environment aligns with my experience in managing technical workflows and stakeholder communication.

In my professional experience as a Web Developer, I have led development teams, coordinated with project managers and clients, and ensured that deliverables met quality and performance benchmarks. I have conducted code reviews, mentored junior developers, and facilitated team meetings to align on goals and improve processes. This has given me practical experience in motivating teams and driving continuous improvement.

I am experienced in tracking KPIs, generating reports, and optimizing workflows to maintain service and performance standards. My background in building scalable systems has taught me the importance of structured, reliable processes and clear communication across departments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am based in the Hamburg area and available for the 3-week on-site onboarding. I look forward to contributing to your team and helping deliver excellent customer service. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
