I am writing to apply for the Courier position at FedEx. Your company's reputation for reliable service and its People-Service-Profit philosophy are well known, and I would be proud to contribute to a team that values its people and customers equally.

While my professional background is in software engineering, I bring strong problem-solving abilities, attention to detail, and a disciplined approach to completing tasks safely and efficiently. I am comfortable working in structured environments that require accuracy, planning, and teamwork.

I work effectively across teams and communicate clearly with people from different backgrounds. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in diverse environments.

I am ready to learn the operational processes at FedEx and contribute to the timely and safe completion of dispatch, pickup, and delivery tasks.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
