I am writing to express my interest in the Life Coach for Students Online Role at FindTutors. The opportunity to support student wellbeing, motivation, and goal-setting aligns with my experience in guiding and mentoring individuals in technical and collaborative environments.

Through my work as a web developer, I have regularly mentored junior team members and interns, helping them set clear goals, stay motivated, and navigate challenges. I have developed a structured yet empathetic approach to coaching that focuses on practical progress and personal accountability.

One area that particularly interests me is helping students build confidence and clarity in their academic and personal lives. I believe that effective coaching combines active listening, clear communication, and consistent follow-through, skills I have honed while working with diverse teams across different cultures and time zones.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
