I am writing to apply for the Medical Virtual Assistant position at Virtual Rockstar Careers. I understand the role requires reliability, clear communication, and the ability to manage tasks efficiently in a remote setting.

Although my professional background is in software engineering, I have developed strong organizational and communication skills through years of working in distributed teams. I am comfortable handling documentation, scheduling, data entry, and following structured workflows with minimal supervision.

In my previous roles, I managed project timelines, coordinated with stakeholders across different time zones, and maintained accurate records. I am proficient with digital tools including email, calendars, spreadsheets, and task management platforms.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident I can contribute to your team and would welcome the opportunity to discuss how my skills align with your needs. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
