I am writing to apply for the Senior Sales Manager position at OLIVER Agency. Your model of designing and running bespoke in-house agencies and marketing ecosystems for brands is a compelling approach, and I am interested in contributing to your growth in the German market.

My background is in software engineering, where I have spent over four years building full-stack web applications and AI-powered platforms. This technical foundation gives me a clear understanding of the digital solutions you offerâ from creative design and social media management to marketing technology and AI-driven tools. I can speak the language of both the product and the client.

In previous professional roles, I worked directly with stakeholders, managed end-to-end project delivery, and communicated complex technical concepts to non-technical audiences. I am comfortable operating independently, building pipelines from scratch, and maintaining long-term client relationships. I approach sales with the same systematic, outcomes-focused mindset I use in engineering.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my background can support OLIVER’s business development in Germany.

Sincerely,

Md Shahanur Islam Shagor
