I am writing to apply for the Senior Sales Manager position at OLIVER Agency. Your model of building bespoke in-house agencies for brands is a unique approach, and I am interested in contributing to your team's growth in the Netherlands and Germany.

My professional background is in software engineering, where I have spent over four years building and delivering digital solutions for clients. In my most recent role as a Web Developer at Explo-IT, I worked directly with stakeholders to understand their needs, translate requirements into technical specifications, and deliver projects on time. This experience has given me a strong foundation in client communication, relationship management, and solution-oriented thinking.

I am a self-directed individual who is comfortable building from scratch. I am fluent in English and Bengali, have working knowledge of Russian and Hindi, and enjoy collaborating in international environments. I am confident in my ability to learn quickly, understand complex value propositions, and communicate them effectively to decision-makers.

I am results-focused and systematic in my approach. I am eager to apply my technical understanding and communication skills to help OLIVER win new business and build lasting client partnerships.

I have attached my CV for your review and look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
