I am writing to apply for the Pflichtpraktikant (m/w/d) Marketing, Social Media & Community Management position at TheraShift. Your mission to help therapists move beyond symptom treatment and create lasting change in the healthcare system is meaningful work, and I would like to contribute to making that vision visible to a wider audience.

My background is in software engineering, but I have always been drawn to the intersection of technology and communication. Through my project work, I have developed a strong sense of visual design using tools like Figma, and I am comfortable creating clean, engaging layouts. I also have hands-on experience with web technologies (HTML, CSS, JavaScript) which gives me a practical understanding of how content appears and performs across different digital platforms.

What stands out to me about this role is the opportunity to combine creativity with structure. I enjoy writing, have a good feel for language, and am comfortable developing content ideas independently. I am also a quick learner, and I am confident I can quickly become proficient with Canva and other content creation tools to produce graphics, carousels, and short videos that resonate with the therapist community.

In addition to my technical and creative skills, I work effectively in environments that value ownership and initiative. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural settings. I am structured and reliable, and I take pride in delivering work that is both thoughtful and on time.

I am eager to bring my creativity, learning ability, and genuine interest in health and personal development to TheraShift. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
