I am writing to express my interest in the Confidential Search role at Chandos Construction. Your company's commitment to innovation, collaboration, and sustainability, combined with a 100% employee-owned model that fosters accountability and mutual success, aligns with how I approach my own work.

My background is in full-stack web development, with over four years of professional experience building and maintaining production applications. I have worked extensively with Laravel and Next.js, developing RESTful APIs, implementing authentication and role-based access control, and optimizing database performance using MySQL and Redis. I also have hands-on experience with real-time features using WebSockets and Socket.IO, and I am comfortable deploying applications on Linux servers with Docker, Nginx, and CI/CD pipelines.

In my previous role at Explo-IT, I designed and delivered scalable web applications end to end. I built responsive, SEO-friendly interfaces using Next.js and Tailwind CSS, integrated secure payment gateways, and implemented real-time chat and notification systems. I also collaborated closely with stakeholders to translate requirements into working features, ensuring that technical decisions supported both user experience and long-term maintainability.

One project that reflects this approach is the Multivendor E-commerce Management Ecosystem, where I developed a Laravel-based backend with role-based access control, REST APIs, and MySQL, paired with Flutter mobile apps for customers, sellers, and delivery agents. The system handled complex marketplace operations while maintaining a smooth experience across platforms.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background can contribute to Chandos Construction.

Sincerely,

Md Shahanur Islam Shagor
