I am writing to apply for the Digital Marketing Manager position at D2B. The combination of digital marketing ownership and administrative support described in the role aligns well with my experience managing web platforms, creating content, and maintaining organized systems.

Through my work as a Web Developer, I have managed website content updates, coordinated with external providers for improvements, and supported SEO initiatives. I have experience using CMS platforms to keep information accurate and current, which directly supports the website management responsibilities outlined in this role.

I have also created graphics and promotional materials for digital platforms, maintaining brand consistency across marketing channels. My experience with design tools and attention to detail allows me to produce marketing assets that support campaign goals effectively.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident I can contribute to D2B's digital marketing initiatives and administrative operations. I have attached my CV for your review and welcome the opportunity to discuss how I can support your team.

Sincerely,

Md Shahanur Islam Shagor
