I am writing to apply for the Marketing Assistenz position at Conception Werbung und Marketing GmbH. Your description of a remote, independent role with clear tasks and flexible hours matches what I am looking for.

Although my professional background is in software engineering, I have developed strong skills in content creation, research, and clear written communication. I understand how social media platforms like Instagram, LinkedIn, and Facebook work, and I have a good sense for what kind of content engages audiences. I can write short, clear text without unnecessary jargon.

I am comfortable working independently and managing my own time. I do not need daily supervision to stay productive and meet deadlines. I can coordinate materials, proofread texts, and keep track of campaign timelines. I am also experienced in researching topics and preparing concise summaries.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am based in Germany and ready to work remotely. I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
