I am writing to apply for the Telefonist (m/w/d) fˆ…r Bewerberhotline position at LK Recruiting GmbH. Your approach of supporting companies in the technical-commercial sector through targeted social media campaigns to find qualified personnel is an interesting model, and I would like to contribute to your team.

Although my professional background is in software engineering, I bring strong interpersonal and organizational skills that are directly relevant to this role. I am fluent in German at the C1 level, enjoy direct communication, and have experience working in structured, documentation-driven environments where accuracy and reliability are essential.

In previous work, I have collaborated closely with stakeholders, managed data carefully, and documented results clearly. I am comfortable working independently, handling multiple tasks efficiently, and maintaining a positive and service-oriented attitude when interacting with people. I am also experienced with digital tools and can quickly adapt to new software platforms.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a role where I can apply my communication skills and structured working style in a professional recruiting environment. I have attached my CV for your review and would welcome the opportunity to speak with you further.

Sincerely,

Md Shahanur Islam Shagor
