I am writing to express my interest in the Steuerberater (m/w/d) position at Taxtalente.de for a partner firm in Weil der Stadt. I understand that this role requires a completed Steuerberaterexamen and deep expertise in tax advisory, which are not within my current qualifications. However, I am reaching out because I believe my background in building digital systems and my openness to structured learning could be relevant for a firm that values digital transformation and modern processes.

Through my professional experience as a Web Developer, I have worked extensively with digital tools, automated workflows, and data-driven systems. I am comfortable with efficient, careful work and have consistently delivered projects that require attention to detail, clear documentation, and reliable execution. I am also experienced in working within teams where communication and responsibility are essential.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
