I am writing to express my interest in the Steuerberater (m/w/d) position at Taxtalente.de for a partner firm in Hˆ¶heinˆ¶d. I understand you are looking for someone with strong communication skills, a careful and efficient working style, and openness to digital processes.

My background is in full-stack software engineering, where I have built and maintained scalable web applications using Laravel, Next.js, React, and Node.js. Over the past four years, I have delivered projects that required careful attention to detail, efficient code architecture, and clear communication with both technical and non-technical stakeholders. I am comfortable working with modern digital tools and adapting to new systems quickly.

One area that particularly interests me is the emphasis on digital workflows and modern office equipment mentioned in your job description. In my previous work, I have deployed applications on cloud infrastructure, integrated third-party APIs, and built real-time features using WebSockets. I am confident I can contribute to a digitally forward-thinking firm.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
