I am writing to apply for the Freelance Social Media Strategist role at Digital. Your focus on building authentic community engagement and audience growth across platforms like Instagram and TikTok aligns with my experience in developing user-centric digital platforms.

Through my work as a full-stack developer, I have built applications that required deep understanding of user engagement and retention. For example, I developed a multi-vendor e-commerce ecosystem that connected customers, sellers, and delivery agents through role-based interfaces and real-time notifications. This project taught me how to design systems that keep users engaged and facilitate community interaction.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in building engaging digital platforms can contribute to your social media strategy.

Thank you for your consideration.

Sincerely,

Md Shahanur Islam Shagor
