I am writing to apply for the Administrative Assistant position on the Development Team at The Asher House. Your organization's mission to create meaningful impact through animal rescue and community building resonates with me, and I would welcome the opportunity to support your team's operational needs.

My background includes coordinating tasks across development projects, managing documentation, and ensuring smooth communication between technical and non-technical stakeholders. I have experience organizing workflows, tracking project progress, and handling administrative responsibilities in remote team environments.

In previous work, I supported development teams by maintaining clear documentation, managing schedules, and facilitating communication between team members. I am comfortable working with project management tools, handling correspondence, and ensuring that administrative processes run efficiently without requiring constant supervision.

In addition to my organizational experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the chance to discuss how I can contribute to The Asher House's development team. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
