I am writing to apply for the Experienced English Speaking Freelance Recruiter role at Mercier Consultancy Group. The opportunity to work remotely with full autonomy while connecting talented professionals with global career opportunities aligns well with my working style and communication strengths.

Through my professional experience as a Web Developer, I have developed strong organizational skills and the ability to manage multiple projects independently. I regularly collaborated with stakeholders, sourced requirements, and maintained clear communication throughout project lifecycles. These skills translate directly to managing recruitment pipelines, conducting interviews, and guiding candidates through the hiring process.

One area that particularly interests me is the end-to-end recruitment lifecycle. In my previous roles, I was responsible for delivering complete solutions from initial planning through deployment. This experience has taught me to stay organized, track progress carefully, and follow through on commitments. I am confident I can apply the same discipline to sourcing, screening, negotiating, and closing candidates.

In addition to my technical background, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your recruitment team.

EARNEST

Sincerely,

Md Shahanur Islam Shagor
