I am writing to apply for the Human Resources Generalist position at Advanced RevCycle. I understand this role requires strong organizational skills, clear communication, and the ability to manage people-related processes effectively.

In my previous work as a web developer, I collaborated closely with cross-functional teams, coordinated project timelines, and communicated technical requirements to non-technical stakeholders. These experiences have given me a solid foundation in managing workflows, resolving issues, and maintaining clear documentation.

I am comfortable working in remote environments and have experience using digital tools to stay organized and connected with team members across different time zones. I am fluent in Bengali and English, with working knowledge of Russian and Hindi, which helps me communicate effectively in multicultural settings.

I am eager to bring my coordination skills, attention to detail, and ability to learn quickly to the HR Generalist role at Advanced RevCycle. I have attached my CV for your review.

Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
