I am writing to apply for the Administrative Assistant position at Aramco. Your emphasis on organization, reliability, and creating a positive environment for the team aligns well with how I approach my work.

Through my professional experience as a web developer, I have developed strong organizational and time-management skills. I regularly managed schedules, coordinated with multiple stakeholders, maintained documentation, and ensured that project details were accurate and up to date. These responsibilities required clear communication, attention to detail, and the ability to handle multiple priorities simultaneously.

In addition to my technical background, I bring a proactive and people-focused mindset. I am comfortable supporting team members, handling inquiries, and maintaining a professional and welcoming environment. I take pride in helping others succeed and ensuring that daily operations run smoothly.

I work effectively across teams and communicate clearly with both technical and non-technical colleagues. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in diverse environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
