I am writing to apply for the Administrative Assistant position at Aramco. Your emphasis on creating a supportive, organized environment where people can do their best work aligns with how I approach my own professional contributions.

Through my experience as a web developer, I have developed strong organizational discipline, attention to detail, and the ability to manage multiple tasks simultaneously. Coordinating project timelines, maintaining documentation, and communicating clearly with stakeholders have been central to my daily work. These skills translate directly into the administrative support this role requires.

I am comfortable handling data entry, preparing documents, and ensuring information remains accurate and up to date. I have experience working independently on complex tasks while also collaborating effectively within teams. I take pride in being reliable, respectful, and proactive in supporting those around me.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
