I am writing to apply for the Administrative Assistant position at Aramco. Your description of an organized, dependable, and people-focused professional who supports daily operations and creates a positive environment aligns with how I approach my work.

In my professional experience as a Web Developer, I have been responsible for coordinating with team members, managing project documentation, maintaining accurate records, and ensuring that communication flows clearly between technical and non-technical stakeholders. These responsibilities have built a strong foundation in organization, attention to detail, and reliability.

I am comfortable managing multiple priorities, handling data entry tasks, and supporting managers and colleagues to keep operations running smoothly. I take pride in creating structure out of complexity and ensuring that nothing falls through the cracks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to the Aramco team.

Sincerely,

Md Shahanur Islam Shagor
