I am writing to apply for the Customer Experience Associate role at Ollie. Your mission to improve the lives of pets and their parents through human-grade nutrition and genuine care resonates with me. I value building long-term relationships and delivering thoughtful, reliable support.

In my previous work as a web developer, I regularly communicated with clients and stakeholders to understand their needs, resolve issues, and ensure satisfaction. I managed feedback across emails, calls, and project management tools, always aiming for clear and helpful responses. This experience taught me to listen carefully, explain technical details in plain language, and follow through on commitments.

I approach every interaction with patience and a problem-solving mindset. Whether helping a customer troubleshoot an issue or finding a better way to handle a request, I focus on understanding the core need and delivering a practical solution. I am comfortable working across multiple channels and tracking details accurately.

In addition to my technical background, I work well in team environments and communicate clearly with people from different backgrounds. I am fluent in Bengali and English, with working knowledge of Russian and Hindi, and enjoy collaborating in diverse settings.

I would welcome the opportunity to contribute to Ollie’s Canine Care team. My CV is attached for your review. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
