I am writing to apply for the Administrative Assistant role at Somewhere. While my professional background is in software engineering, I have developed strong organizational, coordination, and communication skills that transfer well to administrative work.

In my previous roles, I managed project timelines, coordinated with stakeholders across different time zones, handled documentation, and maintained clear communication channels between technical and non-technical teams. These experiences have given me a practical understanding of scheduling, task prioritization, and workflow management.

I am comfortable working independently in remote settings, learning new tools quickly, and maintaining reliable communication with team members. I pay close attention to detail and take a structured approach to managing tasks and deadlines.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
