I am writing to express my interest in the Steuerberater position at Taxtalente.de for a partner firm in Hachenburg. While my professional background is in software engineering rather than tax consulting, I bring a strong foundation in analytical problem-solving, a careful and efficient approach to complex work, and genuine openness to digital workflows.

Through my experience as a full-stack developer, I have developed a disciplined work style focused on accuracy, reliability, and clear communication. I am comfortable working with detailed regulations, managing multiple responsibilities simultaneously, and maintaining high standards even under pressure.

One area that particularly interests me is the emphasis on digital processes and modern tools. I have hands-on experience with Linux servers, Docker, CI/CD pipelines, and cloud deployment, which means I can quickly adapt to and help optimize digital workflows within the firm.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and work ethic could contribute to your partner firm in Hachenburg.

Sincerely,

Md Shahanur Islam Shagor
