I am writing to apply for the Administrative Assistant position at aramco. Your focus on creating a supportive, organized environment where people can do their best work aligns with how I approach my own professional contributions.

While my background is in software engineering, I have developed strong organizational and coordination skills through managing complex projects, maintaining documentation, and supporting cross-functional teams. I am comfortable handling multiple priorities, ensuring accuracy in data entry, and communicating clearly with colleagues and stakeholders.

In my previous work, I regularly coordinated with team members across different locations, managed schedules and deadlines, and maintained detailed records. I take pride in being reliable, detail-oriented, and proactive about solving problems before they escalate.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
