I am writing to apply for the Administrative Assistant position at Aramco. Your description of an organized, dependable, and people-focused professional who supports daily operations and creates a positive environment aligns with how I approach my work.

Through my experience as a software engineer, I have developed strong organizational skills, attention to detail, and the ability to manage multiple priorities simultaneously. I have coordinated with cross-functional teams, maintained documentation, and ensured that projects stayed on track. These experiences have taught me the importance of reliable administrative support in keeping operations running smoothly.

I am comfortable with office software, data entry, and managing schedules. I communicate clearly and professionally, both in writing and verbally, and I handle confidential information with discretion. I enjoy solving problems and helping others succeed, which is why this role appeals to me.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can support your team at Aramco.

Sincerely,

Md Shahanur Islam Shagor
