I am writing to apply for the Assistant Account Payable position at The Obesity Society. While my professional background is in software engineering, I bring strong computer proficiency, attention to detail, and a structured approach to administrative and data-focused work.

The role requires excellent computer skills, particularly with Microsoft Excel, Word, and Outlook. In my previous work, I have consistently used these tools for data management, documentation, and professional communication. I am comfortable working with spreadsheets, maintaining organized records, and following through on tasks with accuracy.

One area where I can contribute immediately is in processing invoices, maintaining ledgers, and supporting accounts payable workflows. My experience with structured data entry and file management has taught me the importance of precision, consistency, and confidentiality when handling financial information.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
