I am writing to apply for the Vertriebsleiter Private Label/ Business Development position at BUZIL-WERK Wagner GmbH & Co. KG. Your company's long-standing reputation as a family-owned leader in professional cleaning solutions, with operations across 35 countries, is impressive. The opportunity to strategically expand the Private Label business and drive growth in new markets is exactly the kind of challenge I am looking for.

My background is in software engineering and full-stack development, where I have spent over four years building scalable web applications and leading technical projects from concept to deployment. This experience has sharpened my analytical thinking, strategic planning, and process optimization skills. I have consistently taken ownership of complex projects, managed stakeholder expectations, and delivered results on time.

One area that particularly interests me is the strategic and operational expansion of a business segment. In my previous roles, I was responsible for identifying growth opportunities, optimizing workflows, and implementing solutions that improved efficiency and scalability. I am comfortable working with data, forecasting, and reporting to drive informed decisions. My hands-on approach and ability to work across teams would allow me to effectively coordinate customer-specific Private Label concepts with internal departments.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my skills and experience can contribute to the continued success of BUZIL-WERK Wagner GmbH & Co. KG.

Sincerely,

Md Shahanur Islam Shagor
