I am writing to apply for the Account & Sales Manager Ostdeutschland position at Ing Plus AG. Your focus on intelligent process automation for infrastructure management and data-driven solutions for network operators is impressive, and I am drawn to the opportunity to represent such innovative technology in the market.

Although my professional background is in software engineering, I bring strong communication abilities, a structured approach to relationship management, and experience working effectively across international teams. In my previous roles, I regularly collaborated with stakeholders, understood their requirements, and coordinated project delivery. These experiences have equipped me with the skills to build trust, communicate technical value clearly, and manage partnerships effectively.

I am comfortable working independently and managing my own schedule. I have experience using cloud-based tools for remote collaboration and am prepared to travel regularly within the assigned territory. I enjoy networking and representing products and solutions in front of diverse audiences.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my communication skills, self-discipline, and ability to build lasting relationships will allow me to contribute meaningfully to your sales team. I have attached my CV for your review and would welcome the opportunity to discuss how I can support the growth of Ing Plus in Ostdeutschland.

Sincerely,

Md Shahanur Islam Shagor
