I am writing to express my interest in the Entgeltabrechner u./o. Personalsachbearbeiter position at Fischer & Partner Gesellschaft fˆ…r Personal mbH. I understand this role is for a company in the Winnenden area with around 500 employees, and I am drawn to the opportunity to grow into a new professional field with structured training and support.

My background is in software engineering, where I have spent over four years building full-stack applications and working with data-driven systems. This experience has given me strong analytical skills, attention to detail, and the ability to manage complex workflows accurately. I am comfortable working with numbers, processing data, and meeting deadlines.

In my previous work as a Web Developer, I handled tasks that required precision, documentation, and coordination with multiple stakeholders. I built systems involving authentication, payment processing, and reporting, which required careful attention to data integrity and compliance. I am confident these skills will transfer well into payroll and personnel administration.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a role where I can apply my analytical mindset and learn new skills. I am ready to start with training and contribute as a reliable team member. I have attached my CV for your review and look forward to hearing from you.

Sincerely,

Md Shahanur Islam Shagor
