I am writing to apply for the Entgeltabrechner (w/m/d) international position at Fischer & Partner Gesellschaft fˆ…r Personal mbH. The role requires strong English skills, international coordination, and process management capabilities, which align well with my professional background.

Through my work as a Web Developer, I have developed a structured approach to managing data, coordinating with stakeholders, and ensuring accurate reporting. I have experience working with external service providers and managing complex workflows across multiple teams, which directly relates to the coordination and control responsibilities described in this position.

One area that particularly interests me is the opportunity to work with EMEA-wide HR processes and reporting systems. In previous roles, I built and maintained applications that required precise data management, timely reporting, and collaboration with international colleagues. These experiences have prepared me to handle the administrative and coordination aspects of payroll and benefits management.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
