I am writing to apply for the Datenerfasser:in position at Wirth Vermittlungen. Your focus on helping clients reduce costs through reliable data management and customer support aligns with my own approach to structured, detail-oriented work.

Through my professional experience as a Web Developer, I have developed a strong foundation in data entry, record keeping, and database management. Working with MySQL and PostgreSQL has given me practical experience in entering, updating, and maintaining accurate datasets. I am comfortable working with structured information and ensuring data integrity across systems.

In addition to my technical background, I bring a friendly and professional demeanor when interacting with clients. I have experience supporting existing customers, coordinating appointments, and communicating clearly over the phone. I approach every task with a structured workflow and attention to detail.

I work effectively across teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
