I am writing to apply for the People & Culture Coordinator position at Edelstoff Media GmbH. Your company's role as a leading media house in the financial sector, guiding professionals through innovative digital formats, is impressive. I am interested in contributing to a team that values both people and process.

Although my professional background is in software engineering, I have developed strong organizational and process-oriented skills through managing complex, multi-stakeholder projects. I am accustomed to handling sensitive information with discretion, maintaining structured documentation, and coordinating workflows across different teams. These skills translate directly to supporting employee lifecycle processes, maintaining personnel records, and ensuring smooth administrative operations.

One area that particularly interests me is the opportunity to integrate new technologies into HR workflows. In my development work, I have consistently used AI tools and automation to improve efficiency and reduce manual effort. I am confident I can apply this same mindset to help optimize reporting, data management, and other administrative tasks using tools like Personio.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application, and I look forward to the possibility of discussing how I can support your team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
