I am writing to apply for the Pflichtpraktikum / Praxissemester in nachhaltiges Marketing at Refarm GmbH. Your mission to bring nature back into cities and support environmentally conscious behavior resonates with me, and I am interested in contributing to your local marketing efforts.

Through my work as a web developer, I have gained practical experience in creating digital content, managing online platforms, and optimizing web presence. I have worked with tools like Figma for design, Tailwind CSS for styling, and various content management systems, which directly support the creation of marketing materials such as brochures, flyers, and social media visuals.

In previous roles, I have been responsible for maintaining websites, improving SEO, and collaborating on content strategies. I am comfortable with video and image editing workflows and can help manage platforms like LinkedIn and Instagram. I am also experienced in writing clear and engaging content for newsletters and blogs.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for a hands-on internship where I can take responsibility and contribute meaningfully. I have attached my CV for your review and would welcome the opportunity to discuss how I can support Refarm’s marketing initiatives.

Sincerely,

Md Shahanur Islam Shagor
