I am writing to apply for the Junior Performance Marketing Manager position at Cyrus Digital GmbH. Your structured training program and clear development path from junior to senior account responsibility are exactly the kind of environment where I can grow and contribute effectively.

Although my professional background is in software engineering, I have developed a strong analytical mindset through years of working with data, metrics, and system optimization. In my previous work as a Web Developer, I regularly analyzed performance data, tracked user behavior, and made data-informed decisions to improve application efficiency and user engagement. This experience has given me a solid foundation in working with numbers and a careful, detail-oriented approach to problem-solving.

What draws me to Cyrus Digital is your focus on real D2C brands and the opportunity to learn performance marketing from experienced professionals. I am looking for a role where I can start with the fundamentals and gradually take on more responsibility. Your offer of structured training twice a week and direct mentorship aligns perfectly with how I prefer to learn â through hands-on work guided by experts.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I am based in Voronezh and ready to relocate to Munich.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Cyrus Digital as I grow into the role.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
