I am writing to apply for the Influencer & Creator Relations role at HˆNG Outdoors. Your approach to building genuine, individual outreach instead of template-driven mass communication is exactly the kind of work I want to be part of.

Although my professional background is in software engineering, I have always been a strong communicator. My work has required me to collaborate with diverse stakeholders, explain technical concepts to non-technical audiences, and build trust through clear, respectful, and patient communication. These skills translate directly into creator relations, where warmth, clarity, and reliability matter most.

What stands out to me about HˆNG is the emphasis on being genuinely nice and approachable. I am naturally organized and comfortable managing multiple ongoing conversations without losing track of details. I enjoy connecting with people, understanding their perspective, and finding ways to create mutual value.

In addition to my communication skills, I work effectively across multidisciplinary teams and am fluent in Bengali and English, with working knowledge of Russian and Hindi. I am comfortable working independently in a remote environment and take ownership of my responsibilities from day one.

I am ready to learn the creator outreach space quickly and bring my organizational skills, attention to detail, and friendly persistence to help HˆNG build lasting partnerships. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
