I am writing to apply for the Admin Virtual Assistant position at myVA Rocks. Your mission to connect busy professionals with skilled virtual assistants aligns with my experience in remote coordination and task management.

Through my professional experience as a web developer, I have developed strong organizational habits, attention to detail, and the ability to manage multiple priorities simultaneously. I am comfortable working with scheduling tools, email platforms, and document management systems to keep operations running smoothly.

In previous remote roles, I handled client communication, maintained project documentation, and coordinated tasks across teams. I am experienced with tools like Google Workspace, Slack, Trello, and Notion, and I can quickly adapt to new software and workflows as needed.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can support your clients as a reliable virtual assistant.

Sincerely,

Md Shahanur Islam Shagor
